Envirocon is pleased to announce that Bruce Culbertson and Kris Cook received the 2016 President’s Annual Project Management Recognition Award and Robert Castilaw was selected for the 2016 Superintendent Recognition Award. In addition, Tracy Lane was selected for the 2016 President’s Annual Health & Safety Officer Recognition Award. The President’s Awards are the yearly recognition of those individuals selected by management as role models demonstrating Envirocon’s core values and capabilities through the safe and successful management of their projects.
9th Annual Charitable Pay It Forward Campaign

Started in 2009 by the Dennis & Phyllis Washington Foundation, the Pay It Forward campaign provides charitable giving cards to 250 employees across the Washington Companies to support the causes close to their hearts. This program emphasizes grassroots philanthropy that the Washington family and the Dennis and Phyllis Washington Foundation greatly value. This year, the giving cards went to a variety of national and local causes - food pantries, animal assistance programs, and specifically to families in need.

To read the full stories on how the Washington Companies are positively impacting our communities, please visit The Dennis and Phyllis Washington Foundation.

Envirocon Maximizes Project Execution by Centralizing Project Delivery

Reinforcing Envirocon’s theme of reliability for 2017 and our commitment to Operational Excellence, we have centralized our corporate Project Delivery Organization (PDO). The PDO provides consistent, integrated resources, tools, and processes to Operations to improve the reliability of our project performance while providing multiple services, including: performance analysis; earned value management; productivity tracking; cost management and analysis; schedule tracking and analysis; and change management controls. As a client-focused organization, Envirocon strives to develop and maintain processes that provide our clients consistency and reliable project delivery. Envirocon’s PDO is organized into four functional, integrated groups that include Estimating, Project Controls, Quality, and Equipment. The PDO is led by Kris Kok, a 29-year employee of Envirocon and Senior Vice President.
Operations Resource Manager: Gene McNutt

We are pleased to announce the promotion of Gene McNutt as our new Operation Resource Manager. Mr. McNutt has over 23 years’ experience in environmental remediation, demolition, and civil construction and served as a Construction Manager for Envirocon since he joined our team in 2012. In his new position, he will focus on coordinating the movement of Field Services personnel throughout all project phases taking into account a number of items including specific experience and qualifications. Mr. McNutt will work closely with both Operations and Human Resources.

Congratulations!

Environmental Remediation of Radiological Contaminants Multiple Award Contract (RADMAC II) At Navy and Marine Corps Installations in NAVFAC SW and Atlantic Areas of Responsibility - N6247315R0811

We are excited to announce that Envirocon is a partner of Amec Foster Wheeler team which was recently awarded a seat on the Radiological Multiple Award Contract II to provide Environmental Remediation Services for radiological contaminants at various Navy and Marine Corps installations. Amec Foster Wheeler was one of the six firms awarded a 5-year contract. Envirocon’s role is to provide radiological services for CERCLA Remedial/Removal Actions. The primary geographical focus of the work is in CA, NV and AZ.

Safety Focus

Award Received for Safe Hours Worked

Envirocon recently received the Million Work Hours Award from the National Safety Council for working over 2.5 million hours without an occupational injury or illness involving days away from work from May 2013 - February 2017. The National Safety Council recognizes organizations that have completed a period of at least 1 million consecutive work hours without an occupational injury or illness resulting in days away from work. This award is credit to our entire team working safely together, watching out for each other, and identifying hazards, so that the job gets done right and we all return home safely every day.

National Safety Stand-Down Coming in May

Each year, the Occupational Safety and Health Administration (OSHA) organizes a week-long safety program based upon a specific area of construction safety referred to as a “stand down.” This year’s “stand down” is happening May 8-12, and focuses on fall prevention. The program provides an opportunity to discuss safe practices and provide additional training, including the proper use of ladders. Reinforcing our commitment to living all aspects of safety every day, Envirocon employees in offices and on project sites are participating in the national safety “stand down” and will work together in an open forum to discuss safe practices.
Upcoming Events

Sponsorship of Power Plant Decommissioning & Excellence Conference

Next week, members from across the energy industry will meet in Nashville, TN at the 3rd Power Plant Decommissioning and Operational Excellence Conference. This conference brings together operators and contractors to discuss the challenges in the partial or full decommissioning of a plant. Some of the biggest challenges companies face when closing a power plant include regulations (state and federal), safe closure of associated ash ponds, and future use of the site. This conference is sure to provide key insight into the strategies used in contracting, dismantling, and remediating decommissioned power plants.

Envirocon is proud to sponsor this event. Our team looks forward to meeting with you to discuss your decommissioning needs.

For more information on the event, please visit: Marcus Evans - Power Plant Decommissioning Conference.

May Conferences

May is just around the corner, and our conference calendar is booked. We will be exhibiting at the following shows:

May 8-10 – SAME Omaha Industry Days, Omaha, NE
May 16-17 – 2017 Environmental Trade Fair and Conference (TCEQ), Austin, TX
May 23-25 – 2017 SAME Joint Engineer Training Conference & Expo (JETC), Columbus, OH

Each of these shows is a unique opportunity to engage with our team, and learn how we serve various markets. Find out how Envirocon can partner with you to complete your next environmental remediation or demolition project. And if you are looking to network and grow your career, meet with our team to discuss our open opportunities.

We look forward to seeing you at these great events!
